

PRINCIPLES OF THE USE OF COOKIES

WEBSITE OWNER

ANASOFT APR, spol. s r.o., Mlynská dolina 41, 811 02 Bratislava

GENERAL DEFINITION OF COOKIES

Cookies are text files that contain a small amount of information that is specified below. When visiting a website, these files are downloaded to the other user's computer, cell phone or other device. Upon each subsequent visit, the cookies are returned to the original website or to a different website that recognizes that cookie file. Cookies enable the website to recognize the user's device. This information can be used to verify and identify the user's session and preferences, and the content of its shopping cart or anything that can be performed by storing data in the user's computer.

Cookies are created for a transitional period of time. Their recoding begins when the user opens a browser window and ends when the user closes it.

Persistent cookies remain in the user's device for the duration of the period set within the cookie's file. They are activated upon every visit by the user to the websites that created the given cookie.

USE OF COOKIES

The websites operated by ANASOFT APR, spol. s r.o. use cookies to collect information in order to obtain a better understanding of the visitors to these websites and how they use them. By using websites operated by ANASOFT APR, spol. s r.o., you grant ANASOFT APR, spol. s r.o. your consent to the use of cookies in compliance with the browser's setting. All of the information is anonymous, but it allows ANASOFT to monitor certain movements such as the sequence of clicks.

A list of all of the websites operated by ANASOFT APR, spol. s r.o. is available at the website <http://www.anasoft.com/sk/home/anasoft-web>. If you visit our websites and your browser accepts cookies, we consider this as your acceptance of our terms and conditions for the usage of cookies. You can find the instructions for the change of cookies by clicking on the help icon of every web browser.

WHAT KIND OF INFORMATION IS COLLECTED?

ANASOFT APR, spol. s r.o. collects two types of information within the framework of its websites. Information collected through cookies and information provided by users by filling out forms.

Information collected though cookies are analyzed in the Google Analytics service include:

- The time of the visit to the website.
- If and when the user visited the website for the last time.
- The site from which the user visited the website.

Cookies do not collect information such as names, e-mail or other addresses or invoicing data. In fact, pursuant to the terms and conditions for the provision of the Google Analytics service, the users of this service are expressly prohibited from collecting information connecting personal data with the information of the Google Analytics service.

Visitors to our websites who exercise their option to not accept cookies shall remain fully anonymous to ANASOFT APR, spol. s r.o. and the Google Analytics tool that we use.

PERSONAL DATA PROTECTION

Websites operated by ANASOFT APR, spol. s r.o. only collect personal data through the use of forms which are actively filled out by the user and sent. In this event, we respect and adhere to the laws and legal regulations related to the collection and storage of personal data.

ANASOFT APR, spol. s r.o. ensures that all information related to individual users is stored pursuant to local and international laws and legal regulations.

OTHER WEBSITES

ANASOFT APR, spol. s r.o. websites may contain references to other websites whose operations are beyond our control; naturally, the above principles do not pertain to such other websites. Operators of these websites may acquire information from you that will be used in compliance with their own rules, which may differ from our rules.

Information collected through cookies is stored by Google service. Read more about Google's personal data protection policy.
